FARHA QURESHI

DEVELOPMENT TEAM LEAD | SENIOR .NET PROFESSIONAL

Mobile: +91 9174147816 | Email: farha.qureshi.tech@gmail.com | Location: Indore, India
LinkedIn: farha-qureshi | Portfolio: View Portfolio

Visa / Relocation Status: Ready to relocate to KSA & UAE

PROFILE SUMMARY

Highly motivated, smart-working and results-driven Development Team Lead with 10+ years of IT experience in designing, developing and supporting enterprise applications using .NET technologies. Strong expertise in backend development, database design, system integration and AWS serverless services, with exposure to GCP cloud technologies and currently upskilling in modern full-stack development using React.js and Angular. Proven ability to lead cross-functional teams, drive delivery, ensure production stability and adopt AI-assisted engineering practices to improve quality and productivity.

TECHNICAL SKILLS

Microsoft Technologies	.NET Framework, .NET Core, C#, ASP.NET, Web API, Web Services, RESTful APIs
Database	SQL Server, MySQL, Stored Procedures, Views, Triggers, SSRS
Cloud Platforms	AWS (Lambda, SQS, S3, EventBridge, CloudWatch) | GCP (Exposure)
Engineering & Delivery	Git, GitHub Copilot, GitHub Spec Kit, Azure DevOps, CI/CD, Agile, Scrum
Core Strengths	Object-Oriented Design, System Integration, Third-Party APIs, Troubleshooting, Team Leadership, Mentoring
Full-Stack Learning	React.js, Angular, TypeScript

PROFESSIONAL EXPERIENCE

Employer	Job Role	Place	Duration
Accenture	Development Team Lead	Indore	Jan 2024 - Present
InfoBeans	Senior Software Engineer	Indore	May 2022 - Dec 2023
Swastika Investmart Indore	.NET Developer	Indore	Sep 2019 - May 2022
National Informatics Centre (NIC)	Programmer	Bhopal	Sep 2016 - Jan 2019

EXPERIENCE SUMMARY

Accenture — **Jan 2024 - Present**

Development Team Lead | Indore

- Lead a development and support team for a Transport Management System (TMS).
- Mentor team members, conduct code reviews and promote engineering best practices.
- Use GitHub Copilot and GitHub Spec Kit for Spec-Driven Development (SDD).
- Coordinate with business stakeholders, QA and dependent teams to support smooth delivery, release readiness and production stability.

InfoBeans — **May 2022 - Dec 2023**

Senior Software Engineer | Indore

- Developed and supported web-based and Windows-based enterprise applications using .NET and SQL Server.
- Implemented Web APIs, integrated third-party services and optimized application performance.

Swastika Investmart Indore

Sep 2019 - May 2022

.NET Developer | Indore

- Developed an eKYC platform covering digital signing, Aadhaar authentication, PAN verification and bank verification.
- Worked on web services, REST APIs and third-party integrations.
- Built systems using three-tier architecture and established coding standards.

National Informatics Centre (NIC)

Sep 2016 - Jan 2019

Programmer | Bhopal

- Developed and maintained Madhya Pradesh Government applications, including eUparjan and the Public Distribution System (PDS).
- Built web-based solutions, reports and integrations to support government operations.

MAJOR PROJECTS

Transport Management System (TMS): Route generation for cab bookings using AWS Lambda, SQS, EventBridge and CloudWatch.

ACP-TMS Integration: Integrated ACP with TMS for seamless data exchange and operational efficiency.

eUparjan (MP Government): Contributed to the computerization of the Food Grain Procurement System for Madhya Pradesh.

Public Distribution System (PDS): Supported food-grain allotment processes with role-based access for officials.

eKYC Platform: Delivered digital signing, Aadhaar authentication, PAN verification and bank verification capabilities.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science Engineering
RGPV, Bhopal | CGPA: 8.55

LANGUAGES

English: Full Professional Proficiency | Hindi: Professional Working Proficiency
